

WIRES BEING LAID FOR STATE ASSEMBLY SLATE

Politicians Considering Matters for Coming Primaries

WANT JOB IN CONGRESS
Stated That the Washington County Aspirants May Have Eyes on Plum

Although the election is over and the agitation stirred up at both the primaries and the general election is on the way to be forgotten it will not be many weeks before another campaign will be in progress. This is the primary election, which takes place in April of this year, instead of September, as according to the constitutional amendments the primary must be held in April of Presidential years, in order to provide for the nomination of Presidential electors. Consequently the primaries will be held on Saturday, April 13, just five months hence.

Already wires are being laid to slate candidates for Assembly and delegates to the State convention. Washington county will elect three Assemblymen, as usual, but the electors of the county will not vote for a candidate for Senator, as Senator J. Carter Judson will be one of the hold overs, his term not expiring until 1914. While the ordinary citizen is not thinking anything about the next campaign it has transpired that a whole lot has already been done to get a line on possible candidates for Assembly and get them into the running before any one else can build any fences in that direction. It is also stated that within a very short time announcements will be made and the campaign will open.

It is also possible that some one may go after Congressman Charles Matthews' seat for the Twenty-fourth district. It is rumored that some Washington county aspirants have an eye on the plum, and may contest for the nomination in the district. It is quite evident that if Congressman Matthews makes a vigorous fight he will be a hard man to defeat for the Republican nomination in the district as he can carry Lawrence county with as good a show of getting Washington or Beaver as any local candidate in either of these two counties. Factional discord in both Beaver and Washington is likely to make it difficult for a candidate in either of these two counties to command a united home support, while Matthews can undoubtedly get that support in Lawrence. He is therefore the logical candidate, although he has not yet announced his intentions as to whether or not he will seek a re-nomination.

In the meantime it is not to be presumed that Washington county politicians are quiet. The election has not lost campaigning by any means. Operations have simply been transferred to a new field and some of the most deliberate and desperate scheming is now in progress as to the next campaign.

Give Pennies For Charity

Westmorland County Children to Donate One Cent Each

"Penny Day" will be observed at the Monessen public schools on Wednesday November 22. This is an annual custom among the schools of Westmorland county and a penny each from the thousands of school children totals up quite a sum which is used for charitable work. Last year one-half of the contribution was used for clothes for the poorer children enrolled in the schools of Monessen and the other half was donated to the Monessen-Charleroi hospital.

LIGHTING COMES UP

Thought Contract Will be Signed Up by the Borough Tonight

MEETING OF COUNCIL

Council will likely take up the matter of the light contract at an adjourned meeting to be held tonight and in all probability will close it up with the West Penn Electric company. An ordinance is required.

A franchise will be granted for five years longer, if the contract is awarded. The West Penn company now holds the lighting contract in Charleroi. Some time ago a Pittsburgh firm presented a proposition to light the streets by gas. This plan was investigated by the light committee of council with the result that at the last meeting held a week ago, it was turned down. By the agreement with the West Penn Electric company the town will secure lighting by over 50 arc lights and a number of Tungsten lights.

NEW COKE OVENS FIRED IN FAYETTE

More evidences of the return of prosperity to the Klondike coke region was shown at Uniontown Saturday when it was announced that coke ovens at Gates works owned by the H. C. Frick Coke company will resume operations. The ovens at Gates have been shut down for seven months, having suspended operations on April 15, last. The resumption of the work today will mean the employment of from 150 to 200 men.

HANGING BOULEVARD WILL NOT BE BUILT

Petition Entered Opposing Proposed Roadway Between Charleroi and Donora--Court Permits Withdrawal of Project

There is to be no "hanging boulevard, between Charleroi and Donora, as the proposed county road between those two points was facetiously called on account of the difficulty of construction and the immense cost of the project. The petition for the construction of this road which had been prepared and advertised to be presented to the grand jury this week has been withdrawn.

On Monday County Solicitor Isaac W. Baum, for the commissioners, upon petition of a number of citizens and taxpayers of Donora, presented a petition to court asking for the withdrawal of the petition and all papers, and an order was made granting the permission to withdraw the petition and all papers filed with said application with permission to remove the same from the records. Thus ends the proposed road.

Criminal Court Convenes at Washington--Judge Galbraith of Butler County Assisting in Common Pleas

The November term of criminal court was convened at Washington Monday. Judge Taylor organized the court, and as soon as this was completed both he and Judge McIlvaine were soon busy trying cases that had been approved by the grand jury that is still in session. To add to the business of the Temple of Justice Judge Galbraith of Butler county is helping out at Washington this week, and is sitting in common pleas court trying civil cases, of which 84 are listed for this term.

DIVINE POWER TO CLEANSE IS SERMON THEME

Taking as his subject of discussion the topic: "And as they went they were Cleansed," Evangelist A. E. Burrows charmed a fair sized audience at the Methodist Episcopal church Monday night. Rev. Burrows took his lesson from the story of the ten lepers who were healed through their faith and obedience to the given command. He showed that much may come through the performance of things which may at first seem impossible. Anecdotes were told by Rev. Burrows to make his talk more forcible. An especially inspiring song service was conducted by Prof. R. A. Jennings. This morning in various parts of town four prayer meetings were held. This afternoon Evangelist Burrows will talk to women and at 4 o'clock he will make an address at the Methodist Episcopal church to school children. Tonight the services will be as usual.

HOLDING INQUEST

Testimony Being Taken Today Into the Death of Wm. J. Dulaney

STRONG SUICIDE THEORY

Testimony is being taken today at the public meeting room at Washington into the death of William J. Dulaney, chief of police of Washington, and captain of Company H, Tenth Regiment. Coroner James T. Heffran is conducting the inquest. Not all the witnesses had been heard at 2 o'clock.

Miss Ada Lenox, at whose home Dulaney's death occurred testified in detail. She said she was the only one in the room at the time and said Dulaney had been drinking. She said he had visited her practically every night for the last six or eight months. Testimony was brought out that not only Dulaney was visibly under the influence of liquor, but that Miss Lenox had also drunk to some extent. Suicide seems to be the theory.

Official Return Board Finishes Count in Court

CECIL VOTES TALLIED

Affect by Two Votes Former Published Report--Votes for Commissioner

The ballot box of Cecil township, fifth precinct, which was brought into court at Washington for a recount was not opened Monday morning as the election board gave sufficient evidence that everything was straight and satisfied the attorneys for Joe Martin, who was asking for the recount. The election board stated before Judge Taylor that no misrepresentations had been made but that the straight tickets that had been cast had not been tallied with the split ticket, although the totals had been counted. The returns did not show that the straight tickets had been counted but when this explanation had been made the board took the ballot box and left for Cecil without its being opened.

The official vote for prothonotary was therefore announced, Lewis being the winner by 12 votes. The vote to date as totaled by the official return is as follows:

Hill, R	8,365
Barnum, D-K	7,511

The official count for the balance of the offices will probably be completed today. While it is claimed that Martin will make a contest of the result for prothonotary, no definite steps have yet been taken and it is believed that the matter will finally be dropped.

A NOTE OF WARNING.

One of the results of the recent
election in Washington county clearly
demonstrated is that in the coming
primaries the Republicans must come
to the front with candidates of merit
and ability in order to present a solid
front at the fall election. While the
Republican ticket with one exception
won out by substantial pluralities at
the election this fall, the party
does not have a clear majority over
all the other parties in the county.
Under these circumstances it will re-
quire strong candidates to win.
Although defeated the Keystone
element in the county has not been
routed. Indeed, it will be much
easier to rally their forces in an elec-
tion with State issues than in a coun-
ty issue where neighborliness and the
personality of candidates have the
most bearing in determining the elec-
tors in the choice of their candidates.
The Republican organization should
take warning by the last election, par-
ticularly the rapid growth of Social-
ism, and make an effort to bring out
a good field of strong candidates from
which the voters may select a ticket.
The people have the final say and the
Republican party will in all probabili-
ty have as much if not more of a
fight on its hands a year hence as it
had at this election.

A MILLION WOMEN VOTERS

Among a million women will be eli-
gible to vote for President of the
United States in 1912, says the New
York Herald. Those women are to
be found in the six Western States
which have granted equal suffrage,
the number in each State who are eli-
gible to vote being about as follows:
California, 500,000; Colorado, 160,000;
Idaho, 48,000; Utah, 65,000; Washing-
ton 120,000; Wyoming, 35,000 total, 928,-
000.
Those figures are not exact, but
constitute the best possible estimate
until the Census Bureau issues the
figures showing the analysis of the
population by States. It is possible
that before election in 1912 many
more States may give the women a
chance to vote for the Presidential
candidates, as the equal suffrage
campaigners have such States as Ne-
vada, Oregon, Kansas and Wisconsin
marked as trembling in the balance
on the suffrage question.
There are in the United States to-
day 18 States which have no form of
suffrage for women, although some
cities in these States have. These
States are Nevada, Texas, Missouri,
Arkansas, Mississippi, Indiana, Ken-
tucky, Tennessee, Alabama, Florida,

Georgia, South Carolina, North Car-
olina, Virginia, Maryland, Pennsyl-
vania, Rhode Island and Maine. The
other States have some form of mod-
ified suffrage for women.

Kentucky was the first State in this
country to give women the right to
vote. In 1838 that State gave school
suffrage to widows with children of
school age, and in 1861 Kansas gave
school suffrage to all women. Year
by year the movement for women
suffrage has gained strength
throughout the country, but it was
always granted in modified form as
the right to vote on school matters,
local tax questions, municipal suf-
frage, etc. In 1889 Wyoming gave
full suffrage to women, being the first
State in the country to do so. School
suffrage was granted to the women of
New Hampshire in 1878, by Mass-
achusetts in 1879, by Connecticut in
1893 and Vermont in 1880.

ELECTRIC SPARKS

PICKED UP IN PASSING

Hunting stories being in order the
strenuous search for game now going
on all over the east prompted a young
fellow who was a visitor to the town
Sunday to tell of some of the game
he saw while working in the mountains
of Colorado a year ago.

"I was employed as electrician at a
saw mill up in the mountains of
Rand county, Colorado, and deer and
elk were unusually thick. There the
is no open season for killing elk in
Colorado. In order to protect this
species the season has been closed for
a number of years, and that is why
elk are not only plentiful but tame.
While some are killed surreptitiously,
the game wardens are very alert and
the pot hunter is sure to meet up with
trouble sooner or later.

"One morning I sated down to a
spring a short distance below the mill
to get a jug of water. The spring was
located near a small open place and
there were four elk standing there,
looking at me, when I came in view.
An old bull, with tremendous sweep
of antlers, snorted defiantly, and start-
ed in my direction. I dropped the jug
and shinned up a small tree. This
action scared the herd, and they all

bounded off into the forest.
"There are many sections in the
west where deer are more plentiful
than sheep in this State. I am no
hunter, but I killed a deer once with a
revolver near a saw mill where I was
working in Montana about a year
ago."

Rev. Dr. Burrows, the evangelist
who is holding a series of revival
meetings in the Charleroi M. E.
church, relates an anecdote that has
a striking bearing on the difference
and as well as the distinction of
gambling.

"Look at this!" exclaimed a young
woman to her husband, one evening
as he returned from his office. "See
this handsome china cup and saucer.
Isn't it a beauty?"

"It surely is, but where did you
get it my dear?"

"At the card club this afternoon. I
won out."

Thrusting his hand in his pocket
the husband drew forth a roll of bills.

"How do you like the looks of
that?" he exclaimed. "Isn't that a
beauty also?"

"Where did you get that?" replied
the wife aghast, who well knew her
husband's circumstances.

"At the club last night," he replied.

"What! Gambling?" exclaimed the
distressed wife.

"As you choose to call it, my dear.
You play at your club stakes, and I
do the same at mine. Is there any
difference?"

PARIS LIKES WHITE CANARY

New Songbird is Most Popular in the
Gay Capital and Fetches
High Price.

The Parisian has an amiable little
weakness for the canary. Every street
echoes to the song of this noisy bird,
and in the holiday time, when families
are away, there are congeries whose
more or less restricted quarters are
positively cumbered with cages of
canaries left in their charge by ab-
sent tenants.

But in or out of the season the bird
market is held every Sunday in the
year in the City Island and a lively
trade in canaries is always done. The
best songsters in the market come
from an old house close by the market,
where lives an ornithologist who
spends his life in teaching canaries to
sing, and he has no 7, after some years
of effort, produced a pure white canary
with a song as powerful and sweet
as any yellow or green bird ever
sold.

The supply of the white canary be-
ing at present strictly limited, those
that were sold last Sunday fetched
comparatively high prices; but they
had all the honors of the day, and for
the few hours that they adorned the
stall they were the center of an ad-
miring and wondering crowd. There
are plenty of canaries that are nearly
white, but this bird is as white as
a dove, without any speck of yellow on
his plumage.

The Parisian has his own special
way of transporting his canaries to
the cage that awaits them at his home.
The bird is placed in a small paper
bag and pinned to the lapel of his coat.

Long Coats, 12.50

A RECENT purchase from the foremost tailors of New York and Cleveland has just been consummated, enabling us to offer the women of this vicinity the greatest variety of models, patterns, materials, colorings, etc., in Fall and Winter Coats ever offered so early in the season.

At \$12.50 we offer the most beautiful garments you ever saw, usually priced from \$15 to \$18, including only all wool materials, such as two-tone cloths, reversible cloths, chevrons, serges, tweeds and kerseys in black, navy, tan, gray, brown, etc., as well as a big variety of novelty mixtures, in plain tailored as well as trimmed styles, also the new Polo Coat, English Walking Coat, the new Princess Coat and the new reversible coats for the Miss—all full lengths. For the elderly woman we have the all wool black cloths, serges, etc., in the half fitted models in 28, 30 and 36-inch lengths. We firmly believe that there is not another such a collection of coats in Western Pennsylvania, and the price at which we offer them is absolutely unmatchable. Your money back if not satisfied. Instead of \$15 and \$18—the real values, we offer them at, just

Banks Guarded by Soldiers.

Like the Bank of England, the Bank of France is now guarded every night by soldiers, who do sentry duty outside the building, a watch being likewise kept inside its precincts. But within quite recent time the officials at the French bank resorted to a very novel method of protecting their bulwark. This consisted in engaging balloons to wall up the doors of the vaults in the cellar with hydraulic mortar as soon as the money was deposited each day in these receptacles. The water was then turned on and kept running until the whole cellar was flooded. A burglar would be obliged to work in a diving suit and break down a cement wall before he could even begin to plunder the vaults. When the bank officials arrived next morning the water was drawn off, the masonry torn down and the vaults opened. Curiously enough, within a few months after this obsolete manner of protecting the bank's cash was done away with, burglars did actually get into the vaults and decamp with about \$45,000 in gold coin.—Strand Magazine

The Quickest Way to Rest.

Do you know how to rest? A very busy man I know takes 20 minutes every day to lie flat on his back on the floor to rest and relax. That is very good, but I have found an even better way, which is to lie flat on the floor with legs up to the knees resting on a chair. This changes the entire circulation, and is the quickest way to rest. Try it. When you lie down to rest at night, and the mind insists upon working, try to relax thoroughly. Turn the thought to the weight of your body; think your hands heavy; keep the thought on the weight of your hands until the nerves tingle as if the hands were going to sleep. If you can feel that tingling sensation you have shown the power of relaxation of the body. Think different members of the body heavy until you can let go every nerve as if the entire body were so much jelly ready to melt on the bed. This requires practice, but it pays richly. To rest the eyes and make them bright, while lying down have them bandaged with a soft black silk handkerchief. This was advice received from an eminent eye specialist.—Harper's Bazar.

Woman Sues to Recover Big Sum for Loss of Husband

KILLED IN COAL MINE

Garnet Durst of Allen township, through her counsel, D. M. McCloskey Esq., has filed a suit against the Monongahela River Consolidated Coal and Coke company in which she seeks \$25,000 damages for the death of her husband, killed in the Red Stone mine of the defendant company near Fayette City.

Her husband was a track or road man in the mine and she claims the company was careless and negligent in not properly providing him a safe and reasonable place to work. The accident in which her husband met his death, occurred on September 27, 1911. It is stated that there were two tracks in the mine on which were loaded and empty cars, operated by electricity the high tension wires being exposed. She states that her husband in attempting to avoid a certain dilly rope came in contact with the exposed wire and received such a shock that he was knocked down, stunned and rendered helpless.

She also claims that no first aid was given the injured man, that medical aid was slow in being summoned and that it was five hours before her husband received medical attention, dying very shortly after that time. The husband left his wife and three children to survive him and by his death they are deprived of his livelihood.

HINTS TO THE HANDICAPPED

Writer in Atlantic Monthly Tells Them How They May Make Best of Life.

Grow up as fast as you can. Cultivate the widest interest you can, and cherish all your friends. Cultivate some artistic talent, for you will find it the most durable of satisfactions, and perhaps one of the surest means of livelihood as well. Achievement is, of course, on the knees of the gods; but you will at least have the thrill of trial, and, after all, not to try is to fail. Taking your disabilities for granted, and assuming constantly that they are being taken for granted make your social intercourse as broad and as constant as possible. Do not take the world too seriously, nor let too many social conventions oppress you. Keep sweet your sense of humor, and above all do not let any morbid feelings of inferiority creep into your soul. You will find yourself sensitive enough to the sympathy of others, and if you do not find persons who like you and are willing to meet you more than half way, it will be because you have let your disability narrow your vision and shrink up your soul. It will be really your own fault, and not that of your circumstances. In a word, keep looking outward; look out eagerly for those things that interest you, for persons who will interest you and be friends with you, for new interests and for opportunities to express yourself.—Atlantic Monthly.

Daily Thought.

If what you have done yesterday seems big to you today, you have done nothing today.

The Daily Newspaper

All experienced advertisers acknowledge that familiarity by the public with the name and nature of their wares is one of the first essentials of success. To attain this familiarity the eye must be appealed to, and appealed to repeatedly. Sporadic appeals are as useless as a bucket of water thrown on an arid plain. What the eye sees the mind holds, but they must see it daily---and the daily newspaper offers the only stable opportunity for the direct aim at the vision. The story told in the daily newspaper, day after day, is impressed on the mind. This impression is a valuable factor.

The Charleroi Mail reaches practically every English reading household in Charleroi, besides circulating up and down the river. At no time in the history of Charleroi has any Charleroi newspaper been so widely or eagerly read than is the Mail at the present time.

Over 7,000 persons read the Charleroi Mail every day

Can an advertiser by any other means reach the eyes and ears of so many people in a single day?

What would the bill distributor charge you for distributing 8,000 bill a day? Compare the cost of the bills and the distribution with the cost of an advertisement in the Mail.

White Heron in New Jersey. Local naturalists and bird lovers are interested in a number of white heron which are making their headquarters at Avis' Pond, Woodstown, N. J., about a mile from town. The birds were first noticed about a week ago. These are the birds from which egrettes are obtained. Extinction of the species is feared because the egrettes can be obtained only when the bird is raising its young, and its death at the hands of the hunter also means starvation of the young heron.

Effective Home Remedy for Tuberculosis

It is a serious matter when the lungs are affected. A trip away to a sanatorium is not only tremendously expensive, but it involves separation from home and friends. Some are benefited, but none can safely return. Eckman's Alternative is effective—no leaving home necessary. For example: 231 S. Atlantic Ave., Haddonfield, N. J. "Gentlemen: In the fall of 1905 I contracted a very severe cold, which settled on my lungs. At first I began to raise sputum, and my physician then told me I must go to California immediately. At this time I was advised to take Eckman's Alternative. I stayed at home and commenced taking it the last week in October. I began to improve, and the first week in January, 1906, I resumed my regular occupation, having gained 25 pounds, fully restored to health. It is now five years since my cure has been effected, and I cannot praise Eckman's Alternative too highly. I have recommended it with excellent results." (Signed) W. M. TATUM

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet of cured cases, and write to Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists and W. F. Hennings, Charleroi, Pa.

CHARLEROI IS BEATEN IN FIRST

Connellsville Basketball-ers Defeat Magic City Team

SHOW MUCH SURPRISE

With a team that was together for the first time when it went on the floor to play, Charleroi was much beaten in the opening struggle of the Central Basketball league by Connellsville Monday night. The game was played on the Coker's floor and when everything was over the score stood 67 to 22 against the local five. However, Adams' aggregation demonstrated that something is to be expected from the Charleroi organization, and there is a superstition that the proverb "the last shall be first and the first shall be last," is carried out in basketball. If that's so Charleroi stands a good show for the pennant, for it was certainly last in the game Monday night.

The game was devoid of sensational playing, both teams being off in all sorts of plays and passes. Charleroi lacked team work.

Preceding the game there was a parade through the principal streets, the members of both teams riding in automobiles behind the Tenth Regiment band.

Doherty, the Cokers' left guard, was severely cut about the right eye during the first half and had to retire. The lineup:

WIRES BEING LAID FOR STATE ASSEMBLY SLATE

Politicians Considering Matters for Coming Primaries

WANT JOB IN CONGRESS

Stated That the Washington County Aspirants May Have Eyes on Plum

Although the election is over and the agitation stirred up at both the primaries and the general election is on the way to be forgotten it will not be many weeks before another campaign will be in progress. This is the primary election, which takes place in April of this year, instead of September, as according to the constitutional amendments the primary must be held in April of Presidential years, in order to provide for the nomination of Presidential electors. Consequently the primaries will be held on Saturday, April 13, just five months hence.

Already wires are being laid to slate candidates for Assembly and delegates to the State convention. Washington county will elect three Assemblymen, as usual, but the electors of the county will not vote for a candidate for Senator, as Senator J. Carter Judson will be one of the hold overs, his term not expiring until 1914. While the ordinary citizen is not thinking anything about the next campaign it has transpired that a whole lot has already been done to get a line on possible candidates for Assembly and get them into the running before any one else can build any fences in that direction. It is also stated that within a very short time announcements will be made and the campaign will open.

It is also possible that some one may go after Congressman Charles Matthews' seat for the Twenty-fourth district. It is rumored that some Washington county aspirants have an eye on the plum, and may contest for the nomination in the district. It is quite evident that if Congressman Matthews makes a vigorous fight he will be a hard man to defeat for the Republican nomination in the district as he can carry Lawrence county with as good a show of getting Washington or Beaver as any local candidate in either of these two counties. Factional discord in both Beaver and Washington is likely to make it difficult for a candidate in either of these two counties to command a united home support, while Matthews can undoubtedly get that support in Lawrence. He is therefore the logical candidate, although he has not yet announced his intentions as to whether or not he will seek a re-nomination. In the meantime it is not to be presumed that Washington county politicians are quiet. The election has not closed campaigning by any means. Operations have simply been transferred to a new field and some of the most deliberate and desperate scheming is now in progress as to the next campaign.

Westmorland County Children to Donate One Cent Each

"Penny Day" will be observed at the Monessen public schools on Wednesday, November 22. This is an old custom among the schools of Westmoreland county and a penny each from the thousands of school children totals up quite a sum which is used for charitable work. Last year one-half of the contribution was used for clothes for the poorer children enrolled in the schools of Monessen and the other half was donated to the Monessen Charleroi hospital.

LIGHTING COMES UP

Thought Contract Will be Signed Up by the Borough Tonight

MEETING OF COUNCIL

Council will likely take up the matter of the light contract at an adjourned meeting to be held tonight and in all probability will close it up with the West Penn Electric company. An ordinance is required. A franchise will be granted for five years longer, if the contract is awarded. The West Penn company now holds the lighting contract in Charleroi. Some time ago a Pittsburgh firm presented a proposition to light the streets by gas. This plan was investigated by the light committee of council with the result that at the last meeting held a week ago, it was turned down. By the agreement with the West Penn Electric company the town will secure lighting by over 50 arc lights and a number of Tungsten lights.

NEW COKE OVENS FIRED IN FAYETTE

More evidences of the return of prosperity to the Klondike coke region was shown at Uniontown Saturday when it was announced that coke ovens at Gates works owned by the H. C. Frick Coke company will resume operations. The ovens at Gates have been shut down for seven months, having suspended operations on April 15, last. The resumption of the work today will mean the employment of from 150 to 200 men.

HANGING BOULEVARD WILL NOT BE BUILT

Petition Entered Opposing Proposed Roadway Between Charleroi and Donora-Court Permits Withdrawal of Project

There is to be no "hanging boulevard, between Charleroi and Donora, as the proposed county road between those two points was facetiously called on account of the difficulty of construction and the immense cost of the project. The petition for the construction of this road which had been prepared and advertised to be presented to the board of directors this week has been withdrawn.

On Monday County Solicitor Isaac W. Baum, for the commissioners, upon petition of a number of citizens and taxpayers of Donora, presented a petition to court asking for the withdrawal of the petition and all papers, and an order was made granting the permission to withdraw the petition and all papers filed with said application with permission to remove the

same from the records. Thus ends the proposed road.

Signers to the petition, who are all residents of Donora, asking that the petition be withdrawn from consideration were the following: W. S. Spragg, J. Add. Sprows, Thos. H. Robinson, L. G. Tomer, John O. Roberts, H. L. Dague, W. T. Raee, Jas. P. Castner, J. L. Laine, E. D. Moros, J. W. Harg, J. G. Frazier, Roman E. Koehler, Edward E. Campbell, M. E. Faller, Ira D. Walker, Howard O. TWO MURDER CASES LISTED FOR TRIAL

Criminal Court Convenes at Washington-Judge Galbraith of Butler County Assisting in Common Pleas

The November term of criminal court was convened at Washington Monday. Judge Taylor organized the court, and as soon as this was completed both he and Judge McElwaine were soon busy trying cases that had been approved by the grand jury that is still in session. To add to the business of the Temple of Justice Judge Galbraith of Butler county is helping out at Washington this week, and is sitting in common pleas court trying

ing civil cases, of which 84 are listed for the term.

Two murder cases that were scheduled to come up at this term of criminal court have both been continued. On the motion, the case of Stewart Palmer, charged with the murder of two negroes at Hackney was continued until the February term and the cases of Andrew Evans were also continued as the man has not secured counsel.

BENTLEYVILLE VOTERS REJOICE

DIVINE POWER TO CLEANSE IS SERMON THEME

Taking as his subject of discussion the topic: "And as they went they were Cleansed," Evangelist A. E. Burrows charmed a fair sized audience at the Methodist Episcopal church Monday night. Rev. Burrows took his lesson from the story of the ten lepers who were healed through their faith and obedience to the given command. He showed that much may come through the performance of things which may at first seem impossible. Anecdotes were told by Rev. Burrows to make his talk more forcible. An especially inspiring song service was conducted by Prof. R. A. Jennings. This morning in various parts of town four prayer meetings were held. This afternoon Evangelist Burrows will talk to women and at 4 o'clock he will make an address at the Methodist Episcopal church to school children. Tonight the services will be as usual.

Official Return Board Finishes Count in Court

CECIL VOTES TALLIED

Affect by Two Votes Former Published Report-Votes for Commissioner

The ballot box of Cecil township, fifth precinct, which was brought in to court at Washington for a recount was not opened Monday morning as the election board gave sufficient evidence that everything was straight and satisfied the attorneys for Joe Martin, who was asking for the recount. The election board stated before Judge Taylor that no misrepresentations had been made but that the straight tickets that had been cast had not been tallied with the split ticket, although the totals had been counted. The returns did not show that the straight tickets had been counted but when this explanation had been made the board took the ballot box and left for Cecil without its being opened.

The official vote for prothonotary was therefore announced, Lewis being the winner by 12 votes. The vote to date as totaled by the official return is as follows:

The official count for the balance of the offices will probably be completed today. While it is claimed that Martin will make a contest of the result for prothonotary, no definite steps have yet been taken and it is believed that the matter will finally be dropped.

A NOTE OF WARNING.
One of the results of the recent
election in Washington county clearly
demonstrated is that in the coming
primaries the Republicans must come
to the front with candidates of merit
and ability in order to present a solid
front at the fall election. While the
Republican ticket with one exception
won out by substantial pluralities at
the election this fall, the party
does not have a clear majority over
all the other parties in the county.
Under these circumstances it will re-
quire strong candidates to win.

Although defeated the Keystone
element in the county has not been
routed. Indeed, it will be much
easier to rally their forces in an elec-
tion with State issues than in a coun-
ty issue where neighborliness and the
personality of candidates have the
most bearing in determining the elec-
tors in the choice of their candidates.
The Republican organization should
take warning by the late election, par-
ticularly the rapid growth of Social-
ism, and make an effort to bring out
a good field of strong candidates from
which the voters may select a ticket.
The people have the final say and the
Republican party will in all probab-
ility have as much if not more of a
fight on its hands a year hence as it
had at this election.

A MILLION WOMEN VOTERS
Among a million women will be eli-
gible to vote for President of the
United States in 1912, says the New
York Herald. Those women are to
be found in the six Western States
which have granted equal suffrage.
the number in each State who are eli-
gible to vote being about as follows:
California, 500,000; Colorado, 160,000;
Idaho, 48,000; Utah, 65,000; Washing-
ton 120,000; Wyoming, 35,000 total, 928,
000.

Those figures are not exact, but
constitute the best possible estimate
until the Census Bureau issues the
figures showing the analysis of the
population by States. It is possible
that before election in 1912 many
more States may give the women a
chance to vote for the Presidential
candidates, as the equal suffrage
campaigners have such States as Ne-
vada, Oregon, Kansas and Wisconsin
marked as trembling in the balance
on the suffrage question.

There are in the United States to-
day 35 States which have no form of
suffrage for women, although some
cities in these States have. These
States are Nevada, Texas, Missouri,
Arkansas, Mississippi, Indiana, Ken-
tucky, Tennessee, Alabama, Florida,

Georgia, South Carolina, North Car-
olina, Virginia, Maryland, Pennsyl-
vania, Rhode Island and Maine. The
other States have some form of mod-
ified suffrage for women.

Kentucky was the first State in this
country to give women the right to
vote. In 1838 that State gave school
suffrage to widows with children of
school age, and in 1861 Kansas gave
school suffrage to all women. Year
by year the movement for women
suffrage has gained strength
throughout the country, but it was
always granted in modified form as
the right to vote on school matters
local tax questions, municipal suf-
frage, etc. In 1889 Wyoming gave
full suffrage to women, being the first
State in the country to do so. School
suffrage was granted to the women of
New Hampshire in 1878, by Mass-
achusetts in 1879, by Connecticut in
1893 and Vermont in 1889.

ELECTRIC SPARKS

Buffalo Bill was wise. He quit the
wild west show business while quit-
ting was good.

After all, what good is the wreck of
the Maine going to do a lot of us
hardened old sinners when it is not
on exhibition?

Will the physicians pursuing State
instructions in examining school pu-
pils relative to their sex take their
word for it?

ish looking hats.

Former Ambassador Joseph H.

of the fact that everybody couldn't

PICKED UP IN PASSING

Hunting stories being in order the
strenuous search for game now going
on all over the east prompted a young
fellow who was a visitor to the town
Sunday to tell of some of the game
he saw while working in the mountains
of Colorado a year ago.

"I was employed as electrician at a
saw mill up in the mountains of
Rand county, Colorado, and deer and
elk were unusually thick. There the
is no open season for killing elk in
Colorado. In order to protect this
species the season has been closed for
a number of years, and that is why
elk are not only plentiful but tame.
While some are killed surreptitiously,
the game wardens are very alert and
the pot hunter is sure to meet up with
trouble sooner or later.

"One morning I sated down to a
spring a short distance below the mill
to get a jug of water. The spring was
located near a small open place and
there were four elk standing there,
looking at me, when I came in view.
An old bull, with tremendous sweep
of antlers, snorted defiantly, and start-
ed in my direction. I dropped the jug
and shinned up a small tree. This
action scared the herd, and they all

bounded off into the forest.
"There are many sections in the
west where deer are more plentiful
than sheep in this State. I am no
hunter, but I killed a deer one with a
revolver near a saw mill where I was
working in Montana about a year
ago."

Rev. Dr. Burrows, the evangelist,
who is holding a series of revival
meetings in the Charleroi M. E.
church, relates an anecdote that has
a striking bearing on the difference
and as well as the distinction of
gambling.

"Look at this!" exclaimed a young
woman to her husband, one evening
as he returned from his office. "See
this handsome china cup and saucer.
Isn't it a beauty?"
"It surely is, but where did you
get it my dear?"
"At the card club this afternoon. I
won out."

Thrusting his hand in his pocket
the husband drew forth a roll of bills.
"How do you like the looks of
that?" he exclaimed. "Isn't that a
beauty also?"
"Where did you get that?" replied
the wife aghast, who well knew her
husband's circumstances.

"At the club last night," he replied.
"I, too, won out."
"What! Gambling?" exclaimed the
dressed wife.

"As you choose to call it, my dear.
You play at your club stakes, and I
do the same at mine. Is there any
difference?"

PARIS LIKES WHITE CANARY

New Songbird is Most Popular in the
Gay Capital and Fetches
High Price.

The Parisian has an amiable little
weakness for the canary. Every street
echoes to the song of this noisy bird,
and in the holiday time, when families
are away, there are conserves whose
more or less restricted quarters are
positively crowded with cages of
canaries left in their charge by ab-
sent tenants.

But in or out of the season the bird
market is held every Sunday in the
year in the City Island and a lively
trade in canaries is always done. The
best songsters in the market come
from an old house close by the market,
where lives an ornithologist who
spends his life in teaching canaries to
sing, and he has no "after some years
of effort, produced a pure white canary
with a song as powerful and sweet
as any yellow or green bird ever
sold.

The supply of the white canary be-
ing at present strictly limited, those
that were sold last Sunday fetched
comparatively high prices; but they
had all the honors of the day, and for
the few hours that they adorned the
stall they were the center of an ad-
miring and wondering crowd. There
are plenty of canaries that are nearly
white, but this bird is as white as
a dove, without any speck of yellow on
his plumage.

The Parisian has his own special
way of transporting his canaries to
the cage that awaits them at his home.
The bird is placed in a small paper
bag and pinned to the lapel of his coat.

No other medicine for woman's ills
has received such a widespread and un-

For more than 30 years it has been
curing woman's ills such as inflamma-

To unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free if it fails to give satisfaction to any one using it.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been combined with Carminatives and other agents

CHARLEROI IS BEATEN IN FIRST

Connellsville Basketball- ers Defeat Magic City Team

SHOW MUCH SURPRISE

With a team that was together for the first time when it went on the floor to play, Charleroi was much beaten in the opening struggle of the Central Basketball league by Connellsville Monday night. The game was played on the Coker's floor and when everything was over the score stood 67 to 22 against the local five. However, Adams' aggregation demonstrated that something is to be expected from the Charleroi organization, and there is a superstition that the proverb "the last shall be first and the first shall be last," is carried out in basketball. If that's so Charleroi stands a good show for the pennant, for it was certainly last in the game Monday night.

The game was devoid of sensational playing, both teams being off in all sorts of plays and passes. Charleroi lacked team work.

Preceding the game there was a parade through the principal streets, the members of both teams riding in automobiles behind the Tenth Regiment band.

Doherty, the Cokers' left guard, was severely cut about the right eye during the first half and had to retire. The lineup:

Connellsville—67	Charleroi—22
